

Fundamental Training

CM academy offers an international qualification for Micropigmentation, first in South Africa. The training programme that covers all aspects of Micropigmentation to insure you acquire full knowledge of the Permanent Make-up industry. CM academy manuals and training is based on SPCP, international training standards as well as ITEC international qualification, RQF Level 4 (UK Accreditation: 603/4085/X)

Aims and objectives

The main aim of the VTCT (ITEC) Level 4 Certificate in Micro-Pigmentation is to enable learners to gain the necessary practical skills and knowledge in order to provide micro-pigmentation treatments to the general public and to gain employment in the beauty industry. The qualification is suitable for learners aged 18 and over and is designed to provide occupational competence at level 4. It also provides a sound platform into further learning at level 4.

Content

This qualification is for learners who want to work within the beauty therapy industry. The qualification consists of 2 mandatory units with a total of 119 hours of Guided Learning (GL) to achieve the full qualification.

The main skills you will perform are:

- Enhancing the client's appearance using micro-pigmentation – to include consultation, skin (Fitzpatrick scale) and hair analysis, carrying out relevant tests prior to treatment, recognising contra-indications and contra-actions, treating different areas including eyes, brows and lips and adapting the treatment to the client's specific needs
- Managing health, safety and security in the salon

The learner will also develop knowledge about related health and safety, client care and communication which is essential in order to work and be successful in the beauty industry.

This qualification also provides:

- The related knowledge and understanding required to perform the micro-pigmentation treatment listed above effectively, in particular anatomy and physiology and common diseases and disorders that may affect when a client should or should not receive treatment
- Opportunities for learners to focus on the development of their wider skills in a micro-pigmentation setting, such as communicating with clients, working with others and problem solving
- Opportunities for learners to develop a range of skills, techniques, personal qualities and attitudes essential for successful performance in employment as a specialist in micro-pigmentation treatments.

7 Day in-clinic course that will give you the skill to perform Brows, Eyeliner and Lip procedures.
